Software developer with work experience using Java, Spring Framework, Spring Boot, MySQL, Hibernate, JSF, and Git. I have also worked with Python for general purposes, specifically in the gaming industry. Even if my heart is devoted to Python, I love learning new frameworks and languages.

WORK EXPERIENCE

Software Engineer/Developer

Saha Bilgi Technologies / Testinium 📄

03/2018 – Present

Istanbul, Turkey

Achievements/Tasks

- Produced and maintain Central Device Farm Management System that currently holds 150+ devices with Java, Spring Boot, Spring Framework, JSF, PrimeFaces, Hibernate, Maven, MySQL, Tomcat and Rest API, using Bash scripts.
- Created a tool that simplifies and reduces time spent by 55% for the installation process for the Operations Team on Testinium using the above technologies plus ThymeLeaf framework for frontend.
- Worked on projects with prominent Turkish companies, Turkcell and TEB to create custom Testinium Rest API integrations, based on their requests.

Student Assistant

Bahçeşehir University Office of Distant Education 📄

02/2017 – 03/2018

Achievements/Tasks

- Successfully contributed to creating simple tools for Turkish Sign Language online education, mainly with subtitle editing using Python.
- Worked on ItsLearning Rest/SAP API in Python to generate automatic registration to class platforms for students.

VOLUNTEER EXPERIENCE

Bahçeşehir University Accessible Life Club (09/2017 – 08/2018)

- Founding President

Bahçeşehir University Esports Club (09/2015 – 09/2017)

- Board Member
